About Me

With over 2.5 years of professional experience, I'm driven to leverage my expertise in full-stack development, front-end technologies, and cloud solutions to drive product innovation. I thrive on building scalable, user-centric applications that improve efficiency and deliver measurable business value.

Education

Bachelor of Vocational Studies: Software Development

Ramanujan College
Graduated: July 2019

Experience

Software Development Engineer

Saralweb | Noida | Oct 2022 – Feb 2025

- Developed secure APIs, authentication flows, and optimized data models for a hospital visitor management system, enabling WhatsApp-based visitor notifications.
- Enhanced authentication and security using OAuth and JWT.
- Optimized SQL and NoSQL queries, reducing load times by 20%.
- Participated in bi-weekly agile sprint planning, contributing to 15% increased team velocity.
- Authored comprehensive unit and functional test suites, reducing post-deployment bugs by 30%.

Independent Software Developer

Freelance | Delhi | Mar 2025 – Present

- Built and deployed full-stack web applications for clients using React, Typescript, Node.js.
- Integrated RESTful APIs and managed end-to-end deployment workflows with Git, Docker, and AWS.
- Collaborated directly with clients to gather requirements, plan features, and deliver production-ready solutions independently.
